In-depth statement on the use of cookies

Foreword

This "in-depth statement" was drawn up and tailored specifically for this site, in accordance with the Provision of 8 May 2014 issued by the Italian Personal Data Supervisory Authority. It expands on and updates other statements already present on the site and/or issued previously by the company, in combination with which it provides all the elements required by art. 13 of European Regulation 2016/679 and subsequent Provisions of the Italian Personal Data Supervisory Authority.

Important notice

We advise all third parties that the use of this statement, or even only a part of it, on other websites with reference to which it would certainly be irrelevant and/or incorrect and/or incongruous, may result in severe sanctions from the Italian Personal Data Supervisory Authority.

Aim of the statement

Our company makes use of web technology in these pages which employs "cookies" and the aim of this statement is to inform the user clearly and accurately of how they are used. This document completely cancels and replaces any prior indications provided by the company on the subject of cookies, which should therefore be considered as completely superseded.

What cookies are

Cookies are strings of text (small files), that the sites visited by a user send to their terminal (PC, tablet, smartphone, etc.), where they are stored for subsequent retransmission to the sites that sent them, during the next visit by the same user.

Types of cookie and corresponding purposes

The cookies used on this website are of the following types:

1. **Technical cookies**:enable optimal, rapid website navigation for the user as well as the efficient use of services and/or of the various options that it offers, permitting, for example, a purchase or authentication for accessing reserved areas. These cookies are necessary for improving the functionality of the website. They can be deactivated however.

2. **Analysis cookies**: these are tools for anonymous and aggregate web analysis, which allow information on how users use the website, how they got there, number and duration of visits, etc... These cookies make it possible to implement improvements to the website that facilitate access by users and to process statistics. These cookies aren't necessary for improving the functionality of the website. They can be deactivated.

3. **Third-party cookies:** these cookies are installed on the user's terminal by webmasters of third-party sites, through this site. The third-party cookies, which have the principal aim of analysis, derive mostly from the functionality of Google Analytics. Further information on Google Analytics can be found by clicking on the following link: http://www.google.it/intl/it/analytics.

   To disable cookies and prevent Google Analytics from collecting navigation data, the Google Analytics opt-out browser add-on can be downloaded by clicking on the following link: https://tools.google.com/dlpage/gaoptout.

Browser settings

Please also note that the user can configure, freely and at any time, their privacy settings in relation to the storing and use of cookies directly through their navigation software (browser) by following the corresponding instructions.

In particular, the user can set so-called "private browsing", thanks to which their navigation software interrupts the saving of the site visit history, any passwords entered, cookies and other information on the pages visited.

Please note that should the user decide to deactivate all cookies (including technical cookies), the quality and speed of the services offered by this website may reduce drastically and access to certain sections of the site itself may be lost.

Practical instructions for the user for correct browser set-up

To block or limit the use of cookies, both by this site and by other websites, directly through your browser, you can follow the simple instructions below which refer to the most commonly used browsers.

Google Chrome: click on the icon named "Customize and control Google Chrome" at the top right, then select the "Settings" menu item. In the screen that opens, select the "Show advanced settings" menu item and then under the "Privacy" menu item click the "Content settings" button, where it is possible to block all or some cookies.

*Microsoft Internet Explorer:*click on the icon named "Tools" at the top right, then select the "Internet options" menu item. In the window that opens, select the "Privacy" menu item, where you can block all or some cookies.

Mozilla Firefox: from the drop-down menu at the top left, select the "Options" menu item. In the window that opens, select the "Privacy" menu item, where you can block all or some cookies.
